Promotions Make-An-Offer

Make-An-Offer Switches

Active ID Reserve % List

OS1000 OS1000

Clicking here will open up the list selection in the same way it does for Promotions

Make-An-Offer Switches are effectively a way to choose multiple items, turn on Make-An-Offer, and push a MAO Reserve percentage to items in that list

List of switches that have been created much the same as Promotions

2. When the "Add" symbol is selected the same list selection screen for promotions will appear *Note; the button should say "Create Switch" instead of "Create Promotion":

3. After items are selected a pop up should appear that allows you to select the reserve percent for that switch.

The screenshot shows a dialog box titled "Make-An-Offer Reserve" with a close button (X) in the top right corner. Inside the dialog, there is a label "Reserve %" above a text input field. The input field has a red border and a small green information icon (i) to its right. Below the input field, there are two buttons: "Cancel" and "Save". The "Save" button is green, while the "Cancel" button is white with a gray border.
